2-Substituted pyrimidines

**Abstract** 

10

5 The present invention relates to pyrimidines of the formula I

$$R^{1}$$
  $N$   $R^{2}$   $L_{n}$   $R^{4}$   $N$   $R^{3}$ 

in which the index n and the substituents L,  $R^1 - R^3$  are as defined in the description and

R<sup>4</sup> corresponds to one of the formulae

$$R^{c}$$
 $Z$ 
 $N$ 
 $R^{b}$ 
 $R^{a}$ 
 $R^{d}$ 
 $R^{d}$ 
 $R^{d}$ 
 $R^{a}$ 

and to processes and intermediates for preparing these compounds, to compositions comprising them and to their use for controlling phytopathogenic harmful fungi.
